A SPIRITUAL ESCAPADE

Are you a fan of architecture and history? Do you like visiting cultural sites? Whatever the season, you can visit the three shrines and experience all their richness.

SAINT MARY MAGDALENE BASILICA

📍 **Saint Maximin La Sainte Baume**

The biggest Gothic edifice in Provence has looked down over the city since the 13th century. This secret refuge of treasures and history is considered the 3rd most important Christian tomb. It contains the relics of St Mary Magdalene.

➕: Go down the few steps leading to the Crypt and live a unique experience in the presence of the saint's relics.

SAINT MARY MAGDALENE GROTTO

📍 **Plan d'Aups Sainte Baume**

After arriving in Provence, Mary Magdalene chose to spend the last 30 years of her life in Sainte Baume. A 45-minute pilgrim's walk takes you to a natural cave dug out of the cliff.

➕: Continue along the path as far as the summit and Saint Pilon chapel. At an altitude of over 1000 metres, look down over the sea and the much loved hills of Provence.

SANCTUARY OUR LADY OF GRÂCES

📍 **Cotignac**

The village of Cotignac looks much like a Provençal nativity scene. Two apparitions took place here: of the Virgin Mary in 1519 and Saint Joseph in 1660. Today, it is called the Village of the Holy Family.

➕: Just as King Louis XIV did when he visited, you can follow the pilgrim's path through the pine forest and walk up the King's Steps to the esplanade.
